## LS-S02-...FT-ZBZ, spring-powered interlock (closed-circuit current principle)

Interlocked

Released

Open

→ Increased personnel protection with separate signal for door position

Door closed and interlocked

To unlock door

Door open

Door close

Interlock door

→ De-energized: even with mains failure or wire breakage: door interlocked = safe state  
Enabling contact (21-22)

→ Applies voltage to coil (A1, A2) e.g. via zero-speed monitor, enabling contact (21-22) opens

→ Both contacts blocked in the open position, even with tampering with simple tools

→ Triple-coded actuator cancels enabling contact inhibit; door position contact (11-12) closes

→ Disconnect coil voltage:  
1st actuator interlocked  
2nd enabling contact closed  
Enable only when door locked

**Switch must never be used as a mechanical stop!**

Open

→ Process protection + increased personnel protection with separate signal for door position

Door closed and interlocked

To unlock door

Door open

Door close

Interlock door

→ Energized: Enables immediate access in the event of mains failure and wire breakage. Both contacts closed

→ Applies voltage to coil (A1, A2) e.g. via zero-speed monitor, enabling contact (21-22) opens  
→ Only possible once it is released, door position contact (11-12) opens

→ Triple-coded actuator cancels enabling contact inhibit; door position contact (11-12) closes

→ Disconnect coil voltage:  
1st actuator interlocked  
2nd enabling contact closed  
→ Enable only when door locked

**Switch must never be used as a mechanical stop!**

With the actuator inserted, the N/O contact is open and the NC contact is closed.

**Switch must never be used as a mechanical stop!**

<sup>1)</sup> Time control of the release operation possible using ESR5-NV30-30

The operating head can be rotated manually in 90° steps to suit the specified level of actuation.

In the event of a loss of voltage, (e.g. during commissioning), the spring-powered LS-...FT-ZBZ can be released with a screwdriver.

The auxiliary release mechanism must be sealed!
