## 60 mm system

15 x 5 (mm) copper bars - In 250 A

Bar part number: 01 619

Support part number: 01 495

Support CL distance (mm)	I <sub>cw</sub> (kA for 1s)	I <sub>pk</sub> (kA)
200	15	30
250	15	30
300	15	30
350	15	30
400	15	30
450	15	30
500	15	30
550	13	26

All values were extrapolated through calculation from the values of the 20x5 tested system and are valid for any number of supports (calculations according to standard EN 60865-1).

**NOTE:** The I<sub>cw</sub> value of 15 kA is the limit value calculated for the thermal effects of a failure lasting 1s and not for the mechanical resistance of copper. The calculation proves that such value can be maintained up to a 500 mm CL distance between the supports.
